McLouth Elementary Extreme Weather Guidelines for Recess

In accordance with our commitment to student safety, and recognizing the impact extreme temperature can have on student health and wellness, McLouth Elementary has established the following guidelines for outdoor recess/activities:

Heat Index Considerations:

- Full recess (and other outdoor activities) permitted when heat index temperature is at (or below) 96 degrees and when water is available for students on the play ground or a process is in place by which students (upon request) may enter the building for water breaks
- Fresh air breaks, of no more than 10 minutes, are permissible (according to individual teacher discretion and administrative consultation) when the heat index temperature is between 97 and 99 degrees and when water is available for students on the play ground or a process is in place by which students (upon request) may enter the building for water breaks

Wind Chill Considerations:

- Full recess (and other outdoor activities) permitted when wind chill temperature is at (or above) 25 degrees and participating students are considered to be appropriately dressed
- Fresh air breaks, of no more than 10 minutes, are permissible (according to individual teacher discretion and administrative consultation) when wind chill temperature is between 20 and 24 degrees and participating students are considered to be appropriately dressed
