## Summer Challenge

Summer is here and students are excited for a break. However we know that our students can lose much of what they have learned over the summer. Please look over the information below and accept the summer challenge.

Attached is a log for you to keep this summer. If you accept this challenge you will need to record what activity you did and for how long. The challenge is for only six of the 12 weeks over summer. Each student will need to log around 2 hours per week of school related activities. Some of those activities include...

- Flash cards (math or alphabet cards)
- iStation (login information included)
- Prodigy (information included)
- Library time
- Visit a Museum
- Reading
- Writing
- Or any math/reading activity

Return the log with your picture attached and receive a reward when we come back in August.

Sincerely,

Jerome Johnson, Principal
