Thursday: (McLouth Outfit) Last day of Kindergarten!

- I will dropping a gift off for your child *this morning*. As much as I would love to give your child a hug, we need to be social distancing ourselves. If your child sees me as I drop off a gift-a wave and hello from a distance would be great!
- Listen to Mrs. Gale read a story: <https://youtu.be/1G1f1AuSsRU>
- Writing: This summer I want to.../This summer I am going to...
- Math: Review 2D and 3D shapes, find them around your house.

Dear Parents & Guardians,

I give you back your child, the same child you confidently trusted in my care. I give your child back to you more mature, wiser, responsible, and of course ready for 1st grade. I know your child would have grown in spite of me, but it has been my pleasure and privilege to watch your child grow into such a great person day by day.

This year did not end how we wanted it to. I know that your child will grow from this experience and I am so proud of how we all came together to bounce back against undesired circumstances.

Remember that I will always be interested in your child no matter where he or she goes, does, or becomes. Please let me know if there is anything I can do for your child as their education continues. Once my student, always my student.

Math Card Games

ADDITION & SUBTRACTION

Go Fish for 10

- Remove Kings and Jacks (ace=1, queen=0)
- Each player gets 4 cards.
- Play just like Go Fish, but instead of looking for matches, look for combinations of 10.

Closest to 0

- Remove face cards
- Each player gets 4 cards
- Players take turns drawing a card from pile and deciding to swap a card or discard.
- The goal is to have the sum of cards in your hand be the lowest.
- To end the game, a player says "Closest to Zero" and lays down their cards. Other players get one more turn and lay down their cards.
- The player with the lowest sum of all cards wins.

Go for 10

- Remove face cards
- Lay out 20 cards face up
- Each player turns removing two cards that add up to ten.
- Try to remove as many cards from the table as possible.

Sum War

- Remove Kings and Jacks (ace=1, queen=0)
- Split the deck equally.
- Each player turns over two cards and says the sum of their numbers. The person with the greater sum wins and takes the cards.
- Play for a certain amount of time or until all the cards are gone.
- The person who gets all the cards first, or who has the most cards, wins.
- You can also play using subtraction.

Salute

- Remove face cards
- Sit in a circle and take turns being the judge.
- When the judge says "Salute!" the players put their card on their forehead without looking at it.
- The judge announces the sum of the two cards.
- Players try to guess the amount on their card based on the card the other player is holding.

25

- Remove face cards
- Split the deck equally
- Each player turns over a card and adds it to the previous number.
- You keep adding cards until you reach 25.
- If a person's card would go over 25, they need to subtract the number.
- When someone hits 25, they win.
