

Beginning Sound Hot Potato

What you will need, a timer, something to toss, letter dice-
<http://letterdice.iphonemarks.com/> or a homemade spinner with letters on it.

You will roll the dice/spinner to figure out what letter you will do first. Set the timer for 1 minute and toss the object back and forth coming up with words that begin with that letter. Make sure to go over the letter sound and give an example before you start. When the timer beeps the person with the object in their hand loses. You will then roll the dice again for a new letter and then start the process over.

Example: B

Person 1 "Boy" toss object

Person 2 "Book" toss object

Person 1 "Bag" toss object

Person 2 "Big" toss object

More than 2 people can play 😊
