

BUILDING WORDS

You can use a pan for this, not really needed-paper will work 😊

Write 3 examples of each word family endings and 4 different word families. (Shown above)

Have your child pick letters to put in front of each word family ending. These don't need to be magnetic, they can be written on papers to place in front. (Do one word family strip at a time.)

Read the word family ending with your child:

Example: from the picture shown

"All add /B/ is?" Child- "Ball". "All add /M/ is?" Child-"Mall" "All add /p/ is?" Child-"Pall"

The word does not need to be spelled correctly (such as pall). As long as the correct sound is added in front of the word family and it rhymes.
