

Flashlight reading!

Your child may use a dark space to play this game. If you don't have an actual flashlight, there are also flashlights on phones.

Tell your child that they are going to use their flashlight to find letters in a book. You will say a letter and they will have to find the letter in the story.

They will point the flashlight on the correct letter in the story.

Play until time is up or until all the letters are found.
