

# Grab and Pull Letter Load

## Grab and Pull LETTER LOAD

1. Tie the rope to the basket.
2. Spread the alphabet letters on the lawn. (can also be letter cards)

3. Create a “load list” on each index card. Write 2-6 letters on each card.

Tell your child that you need him or her to pick up a load. Hand the “load list” to your child.

Your child needs to drag the basket to the letter lot and find the appropriate letters on the list. Add them to the basket and pull them back to the designated place and identify the letters in their basket.

Play over and over again!

**Variation:** Write a word on the card and have your child collect those letters. When the load is delivered, have your child arrange the letters in the correct order to spell the word.
