

Graphs Graphs Graphs

1. Watch: <https://youtu.be/B3gTIOkVFf8>
2. You now get to create your own graph! You may need an adult or sibling to help you set up and spell out the words and questions in your graph OR if you want extra handwriting practice, you can trace over the words or write it as they spell it for you.

Side note: you do not need a huge piece of paper for a graph, I just used it for visual purposes

Question Ideas:

What is your favorite pizza topping?

What is your favorite animal at the zoo?

What is your favorite color?

What is your favorite dessert?

What is your favorite Disney movie?

Feel free to contact me if you need an extra person to vote 😊
