

LETTER SOUND LISTENING GAME

Create a game board like the one's shown in the picture. With 8 boxes of the same letter. You can work on any letter you wish.

Your child can use a bingo dauber, stamp, stickers, or mark with a crayon each time they hear a word with the beginning sound of the letter in the box.

When the board is filled, you can create a new board with a new letter if there is still time left over.

(This game has cards on the website from the photo but instead of printing cards or copying and pasting 24 sets of cards for you to scroll through, it may be easiest just to come up with words from the top of your head. 😊)

So if the letter on their board is B, you would come up with words such as boy, ball, balloon, boat, bug..etc...along with other words mixed in between with different beginning sounds 😊
