

# Letter Sounds Race

1. Have letter cards (or magnet letters, any form of letters would do) on one side of the room, or outside.
2. Say a letter sound, your child will go to the letters and find the letter that makes the sound and say the name of the letter.  
Ex: Parent or sibling: /b/ child runs to find the letter B and says "B"  
Then the parent says another sound.

If students are having trouble identifying letters and sounds, provide a smaller amount of letters to choose from. You can also say the name of the letter instead of the letter sound and they can find the letter.
