

NAME

That animal

1. Have your child write their first name.
2. Have your child name each letter in their name and think of an animal that begins with each letter in their name.

Example: B-baboon

O- ostrich

B- bobcat

B- Bird

Y- Yak

Keep track of the animals your child names in their name.

If your child is struggling with letters, remind them of their letter sounds. If they are struggling with thinking of animals, give them options- does B begin in deer, bird, or cat?

- Next, you can have your child create a zoo picture with the animals that are in their name. This will be their special zoo. 😊
