

# RACE TO A LETTER

You don't need a long sheet of paper, but if you have it then that works! You can either spread out alphabet cards or write letters in chalk outside on a sidewalk. You will want to make the letters reach out a good distance since they will probably be trying to roll the cars with all their might 😊

If you do not have toy cars, try making a paper airplane, or roll a ball or marble.

Have your child roll the car and the letter the car lands on or the closest letter around it will be the letter they need to identify. 😊
