

Work Release (Seniors Only)

Work Release is a senior-level option for students who are currently employed and want to build real-world job skills while finishing high school. Students enrolled in Work Release may leave campus after 6th hour to report directly to their job.

To participate, students must:

- Have a current job outside of school
- Complete a Work Release contract signed by the **student, parent/guardian, employer, and a school administrator**
- Turn in a **work log** on a regular basis, signed by their **work supervisor**, to verify hours and employment

Work Release is designed to support responsible seniors who are maintaining steady employment and are ready to balance school expectations with workplace responsibilities.
